

## Ecological Surveys!

Come and learn how to survey for wildlife in two beautiful countryside churchyards. Professional ecologist Martin Newcombe will be on hand to help us to identify the plants and animals we find. Our results will be added to a national database to help conservationists target their efforts to halt the decline in wildlife. The sessions will be around 3 hours long, with breaks for refreshments. No previous experience of wildlife surveying needed.

### The group will run for two sessions:

5<sup>th</sup> July at Goodnestone Church

2<sup>nd</sup> August at Petham

Meet us there or come to Canterbury Take Off for a lift at 10:30

For any further information, please feel free to get in contact using the details here or use the contact form on our website.
